

December 2017 News!

Dear Friends,

We hope this news update finds you healthy and happy!

As the end of 2017 looms ahead we would like to take this opportunity to thank one and all for their kindness and support. We cannot do what we do everyday, without it!

Currently Bali is in an economic crisis with tourism down around 80%. This due the continuing threat of Mt. Agung erupting and the ash cloud created. This crisis has a flow on negative effect on our economy for all concerned, including Bali Kids. Bali being our second biggest source of income. We enjoy a great deal of support here at home, however due the current situation, such support cannot be sustained. Many are sadly losing their jobs in Bali and Bali Kids will also be forced to reduce services and staff should the problems continue.

So if you can spare a donation for the end of the year we would be most grateful!

We wish everyone the best of health and happiness for 2018!

Enjoy the holiday season!

Yours sincerely,
The Bali Kids Team

Cup Success for Songan Village!

Our Hong Kong Angels!

Thanks to our wonderful 'Angels For Orphans' in Hong Kong, Bali Kids will partner with Bali Children Foundation to transform the district of Songan. Bringing a new era of Education, Health Education, Medical and Dental services to the poor children of Songan.

Our respective teams met with the Kapala Desa (Village Head) who gave his full support for the program which includes a much needed education program on HIV and Sex Education. The program will assist 2,348 poor children and eight Government schools. Our sincere thanks to the people of Songan Village, BCF and our Angels in Hong Kong, who raised the funds from their Melbourne Cup Event in Hong Kong!
